

P300 Gymnastic wall and stage

Product info

Frame and wall bars lacquered solid birch. Top acoustic-coated furniture board, birch veneered back panel. Folding mechanism: stage in the lower position, wall bars in the upper position. Wall mounting.

Top color from Acoustic color chart. Thanks to the gas springs, the stage is easy to raise and lower. The gymnastic wall and stage is securely locked in the upper position on a wall-mounted locking profile with two furniture locks. Optional step (P310) and anti-climbing plate (FKE-P300). Evenly loaded, the maximum load capacity for the stage is 300 kg and 200 kg for the wall bars.
