

*Playhouse – a safe, cozy,
and peaceful space
for children!*

PLH1-BT Playhouse, birdhouse

Product info

The walls and roof of the playhouse are made of 22 mm sound-absorbing felt, which effectively reduces noise and creates a peaceful environment. The frame and base are crafted from durable solid birch and birch plywood, combining natural beauty with durability. The sound-absorbing felt is available in a variety of colors (2F color chart). As an optional accessory, a comfortable, easily removable mattress is available (PLH1-WBP).

The playhouse is designed to meet the needs of daycare centers, providing a quiet and imagination-enriching space for play and relaxation. Its cozy design enhances children's focus and well-being – a perfect combination of functionality and aesthetics!
